RATIONALE

The file of this patent application contains Figures 12 - 18 executed in color depicting regions of similar stress and regions of similar displacement of the described embodiments of the invention.

The use of color is mandatory and commonly used in the arts to depict in a sufficiently contrasted fashion a multitude of adjacent regions having slightly different properties such as stress and displacement. Hence the Applicants respectfully request the color drawings being admitted in the application upon payment of the enclosed fee set forth in 37CFR § 1.17(i). Three sets of the color figures are enclosed with this petition.

Respectfully

A handwritten signature in black ink, appearing to be 'JS' or similar, written in a cursive style.
